

Paille D016

Fromental wallcoverings are hand-made to order, tailored for each room. From supplied elevations and floor plan, we will place the design and panel seaming to ensure optimal installation.

Technical Information

Design and Colourway

Our Paille design is available in a number of standard colourways. The gradients for these colourways are shown in the miniatures on the right.

Custom colourways are available, however these will carry a surcharge. It is important to note that Paille colourways are created using a combination of silk and paint. The silk colour is always featured in the middle, most open section of the design and so is integral to the colourway. Our team can advise on restrictions on custom colourways on request.

Installation

This all-over design is hand-painted onto individual silk panels, therefore the design will not join across panel seams. However, joins are usually well hidden within the complex pattern of the design. This is illustrated in the visual on the right.

Material and Technique

Hand-painted on paper-backed silk.

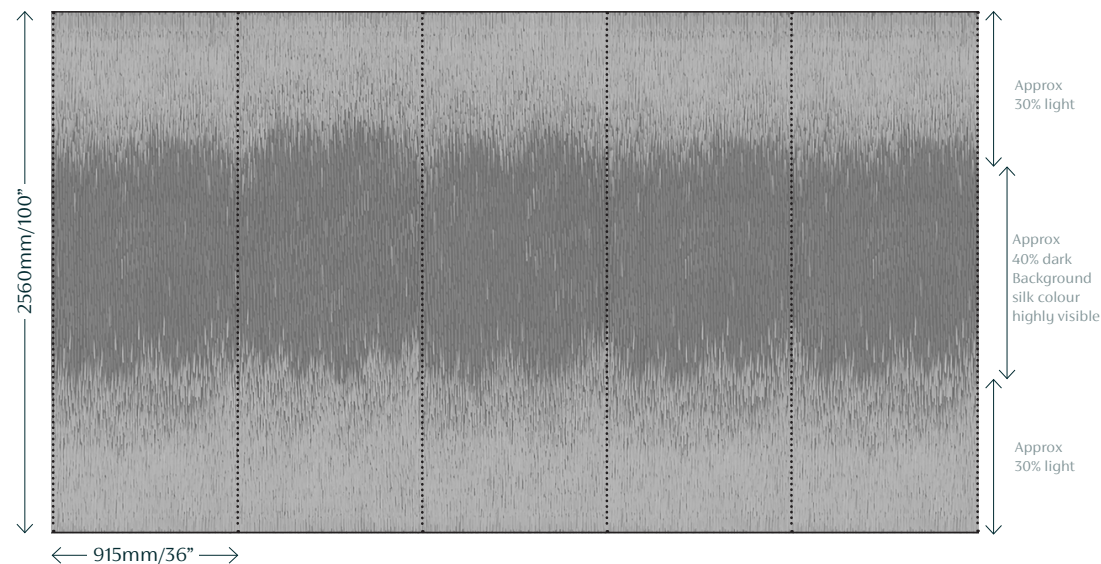

Dimensions

Height - Panels are supplied 300mm/12" higher than specified wall height. Standard panel height is up to 4300mm/14ft. Taller panels are available with a surcharge.

Width - Standard panel width 915mm/36" plus 15mm/1/2" trim.

Paille Example Gradient (light-dark-light) - as per colourways Henderson and Mingus

Paille Example Gradient (dark-light-dark) - as per colourways Cole, Mamie, Ornette and Parker
