Bespoke Tailoring

For the most considered result, we recommend our Tailoring service. The design is adapted to your space—factoring in layout, key features, and complex areas such as staircases—to ensure a cohesive, intentional installation. Service fees apply.

Standard Run

Available at set heights, the Standard Run is ideal if you need to move quickly into production. It offers the same artistry and craftsmanship as a tailored order but without spatial or compositional adjustments, resulting in a more general fit in challenging spaces.

Customisation

Many of our designs can be customised to suit your palette and preferences. As customisation involves design development, customised orders are completed through our Bespoke Tailoring service and cannot be offered as a Standard Run.

Embroidery

We do not recommend heavy embroidery for Standard Run orders, as embroidered sections may need to be trimmed during installation, which may lead to fraying.
