Tea Paper
Essentials

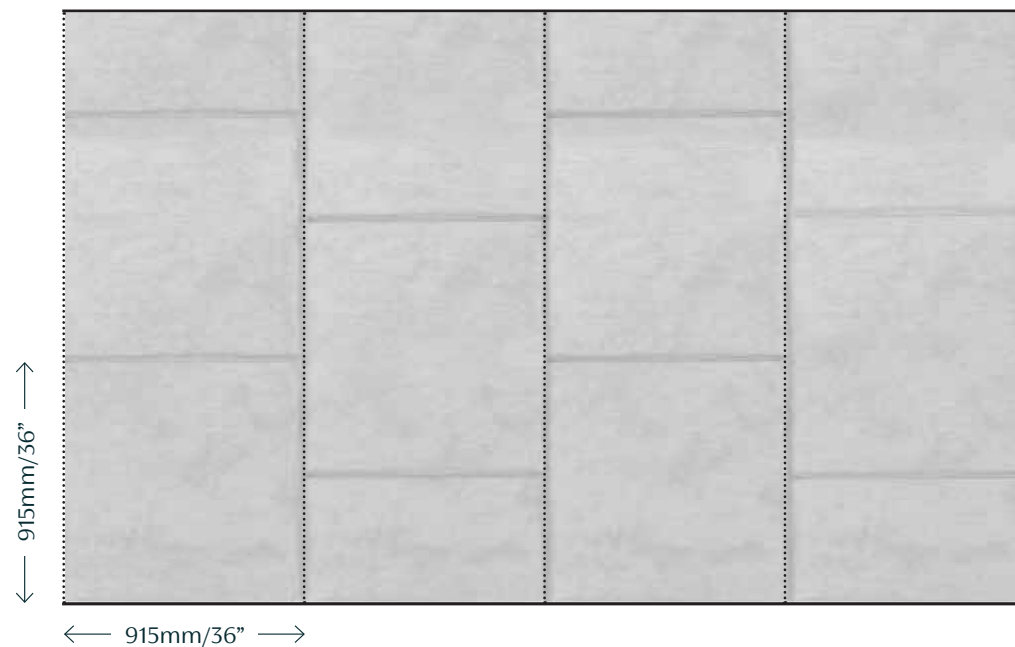

K001 Tea Paper

Hand-painted pieced papers are constructed with hand-made Chinese rice paper. The soft textural feel of the paper and painted watercolours marks recreate an aged look similar to that of antique 18th century wallpapers.

The papers are pieced together with horizontal joins at either 457mm / 18", 915mm / 36" or custom size squares recreating the effect of the traditional wallpapers.

We have a standard collection of 19 contemporary and fresh colours, custom colours are also available. Papers are coloured by hand and slight colour differences from order to order are to be expected.
