

The image shows a sophisticated interior space. A large, rectangular landscape painting in a dark, ornate frame dominates the upper half of the wall. The painting depicts a serene scene with rolling hills, a river, and several trees. The room's walls are decorated with a wide, dark wood or metal band featuring a repeating geometric pattern. Below this band, a light-colored, curved sofa is adorned with several cushions, including solid dark ones and others with abstract, wavy patterns. In the foreground, a low wooden table holds a few decorative objects and an open book. The overall color palette is warm and earthy, with various shades of brown, tan, and cream.

Bucolic Marquetry
Conversational

This panoramic design takes its cue from the age-old art of marquetry, where fragments of wood were patiently pieced together to create richly detailed botanical motifs and scenics. Historically, the beauty of these compositions lay not only in the finished image, but in the extraordinary patience and skill behind them.

FRONT COVER IMAGE Bucolic Marquetry in Burnished Walnut

Bespoke Tailoring

For the most considered result, we recommend our Tailoring service. The design is adapted to your space—factoring in layout, key features, and complex areas such as staircases—to ensure a cohesive, intentional installation. Service fees apply.

Standard Run

Available at set heights, the Standard Run is ideal if you need to move quickly into production. It offers the same artistry and craftsmanship as a tailored order but without spatial or compositional adjustments, resulting in a more general fit in challenging spaces.

Customisation

Many of our designs can be customised to suit your palette and preferences. As customisation involves design development, customised orders are completed through our Bespoke Tailoring service and cannot be offered as a Standard Run.
