BRING MILLEFLEURS TO LIFE WITH AUGMENTED REALITY

Your Millefleurs wallcovering holds a delightful secret waiting to be discovered – an enchanting, augmented reality experience that transforms your walls into a living garden. This playful dimension adds a layer of magic – the interactive animations stirring moments of joy and surprise across generations.

Welcome to a new way of experiencing interiors, where craftsmanship meets innovation and your walls become a living work of art.

How to Activate the Magic:

1. Use your mobile device to scan the QR code included with your order.

2. Locate the animation triggers hidden in the Millefleurs design.

3. Watch in wonder as birds beckon, butterflies flit between branches, and bees hover amongst the blooms. Let the accompanying soundscape fill your room – as if a gentle breeze has stirred the garden just beyond your wall.

FROMENTAL

For the best experience:

Turn off silent mode to enjoy the full soundscape.

Follow the on-screen prompts – your phone may request permission for camera and audio access.

Ensure your space is well-lit for the animations to seamlessly spring to life.
