Branches in the Breeze

Each springtime, the cherry blossom tree returns to life, symbolising rebirth. Branches In The Breeze captures the fleeting beauty of these majestic trees.

With branches falling from the top of the design, this wallcovering is particularly well-suited to rooms with dado rails, half-height panelling or lots of furniture.

Fromental wallcoverings are hand-made to order. The designs within the Sophie Paterson Collection consist of a series of panel layouts which then repeat. Each design can be ordered as a straight run or tailored to fit by both trade and retail clients.

Bespoke Tailoring

For the most considered result, we recommend our Tailoring service. The design is adapted to your space—factoring in layout, key features, and complex areas such as staircases—to ensure a cohesive, intentional installation. Service fees apply.

Standard Run

Available at set heights, the Standard Run is ideal if you need to move quickly into production. It offers the same artistry and craftsmanship as a tailored order but without spatial or compositional adjustments, resulting in a more general fit in challenging spaces.

Customisation

Many of our designs can be customised to suit your palette and preferences. As customisation involves design development, customised orders are completed through our Bespoke Tailoring service and cannot be offered as a Standard Run.

Embroidery

We do not recommend heavy embroidery for Standard Run orders, as embroidered sections may need to be trimmed during installation, which may lead to fraying.
