Grey Willow
Collaboration Collection

Grey Willow boasts exquisite hand-painted and hand-embroidered silk in two sophisticated monochromatic colourways. The finely embroidered individual buds invite tactile exploration, while the focal catkin, rendered with exceptional finesse, provides a palpable texture.

Grey Willow is more linear and graphic, making it easy to compose seamlessly in any room. The subtle pops of colour mimic natural catkin hues, creating a delicate interplay that maintains a connection to organic inspiration.

Fromental wallcoverings are hand-made to order. The designs within the Sophie Paterson Collection consist of a series of panel layouts which then repeat. Each design can be ordered as a straight run or tailored to fit by both trade and retail clients.

Bespoke Tailoring

For the most considered result, we recommend our Tailoring service. The design is adapted to your space—factoring in layout, key features, and complex areas such as staircases—to ensure a cohesive, intentional installation. Service fees apply.

Standard Run

Available at set heights, the Standard Run is ideal if you need to move quickly into production. It offers the same artistry and craftsmanship as a tailored order but without spatial or compositional adjustments, resulting in a more general fit in challenging spaces.

Customisation

Many of our designs can be customised to suit your palette and preferences. As customisation involves design development, customised orders are completed through our Bespoke Tailoring service and cannot be offered as a Standard Run.

Embroidery

We do not recommend heavy embroidery for Standard Run orders, as embroidered sections may need to be trimmed during installation, which may lead to fraying.
