Grey Willow
Collaboration Collection

Grey Willow boasts exquisite hand-painted and hand-embroidered silk in two sophisticated monochromatic colourways. The finely embroidered individual buds invite tactile exploration, while the focal catkin, rendered with exceptional finesse, provides a palpable texture.

Grey Willow is more linear and graphic, making it easy to compose seamlessly in any room. The subtle pops of colour mimic natural catkin hues, creating a delicate interplay that maintains a connection to organic inspiration.

Fromental wallcoverings are hand-made to order. The designs within the Sophie Paterson Collection consist of a series of panel layouts which then repeat. Each design can be ordered as a straight run or tailored to fit by both trade and retail clients.

Straight-run

Supplied as a series of joining panels. In order to calculate the number of panels required, simply specify the wall height and the perimeter of the walls to be covered.

Tailored

We can also tailor the designs to each room. We will place the design and panel seaming to fit the space and ensure optimal installation, and submit a miniature design layout for client approval prior production.

This service carries a tailoring fee between 10-30% depending on complexity.
